

REYES WAGE / EARNING-CAPACITY RECORDS

Production of Employment, Payroll, and Vocational Materials

Subject Employee: Yolanda M. Reyes (DOB 06/22/1991)
Employee Address: 612 Poplar Street, Rivergate, CA 91766
Employer of Record (2023–2025): Coastline Home Goods, Inc.
Position: Sales Associate — Home Textiles / Housewares Department
Date of Injury: 10/18/2025
Bates Range: REYES-EMP-000001 – REYES-EMP-000148
Produced To: Delfino Marek LLP (counsel for Alder Creek Transit District)
Production Date: 06/03/2026
Producing Party: Halstead & Cruz LLP on behalf of Plaintiff Yolanda Reyes

To Whom It May Concern:

Re: Employment Verification — Yolanda M. Reyes

Coastline Home Goods, Inc. confirms the following employment information for Yolanda M. Reyes, in response to a records request in connection with the above-captioned personal-injury matter:

Employee Name:	Yolanda M. Reyes
Employee ID:	CHG-14762
Hire Date:	April 3, 2019
Position at Time of Injury:	Sales Associate II, Home Textiles Department, Store #118 (Rivergate)
Employment Status at Time of Injury:	Active, non-exempt, hourly
Base Hourly Rate at Time of Injury (10/18/2025):	\$23.50 per hour
Average Weekly Scheduled Hours (trailing 26 pay periods pre-injury):	34.0 hours/week
Scheduling Pattern:	Regular part-time (32–36 hours weekly), five-day rotation
Overtime Eligibility:	Yes; overtime paid at 1.5× base rate for hours over 8/day or 40/week (California)
Shift Differential:	\$0.75/hour for evening shifts after 6:00 p.m. (not included in base)
Employment Status Post-Injury:	Unpaid medical leave, effective 10/18/2025. Position held open per Coastline's leave policy through 04/18/2026; at expiration, position closed. No return-to-work has occurred.

Ms. Reyes was in good standing at the time of injury, with no active corrective action on file and a most-recent performance review rating of "Meets Expectations Plus" (11/2024 cycle).

Records reviewed and certified as true and accurate copies of Coastline Home Goods, Inc. employment records maintained in the ordinary course of business.

TAB B — IRS FORM W-2 SUMMARY

Copies of the executed W-2s are filed at Bates 000005–000010. The following summary is reproduced from the wage-and-tax statements for tax years 2023, 2024, and 2025.

W-2 — Tax Year 2023

Box	Description	Amount
a	Employee SSN	XXX-XX-4192 (redacted)
b	Employer EIN	XX-XXX8834 (redacted per protective order)
c	Employer Name	Coastline Home Goods, Inc.
c	Employer Address	2245 Harborview Boulevard, Long Beach, CA 90802
e/f	Employee	Yolanda M. Reyes, 612 Poplar Street, Rivergate, CA 91766
1	Wages, tips, other compensation	\$40,687.42
2	Federal income tax withheld	\$3,214.06
3	Social Security wages	\$40,687.42
4	Social Security tax withheld	\$2,522.62
5	Medicare wages and tips	\$40,687.42
6	Medicare tax withheld	\$589.97
16	State wages, tips, etc. (CA)	\$40,687.42
17	State income tax (CA)	\$894.11

W-2 — Tax Year 2024

Box	Description	Amount
c	Employer Name	Coastline Home Goods, Inc.
1	Wages, tips, other compensation	\$41,528.19
2	Federal income tax withheld	\$3,297.44
3	Social Security wages	\$41,528.19
4	Social Security tax withheld	\$2,574.75
5	Medicare wages and tips	\$41,528.19

TAB D — HR-VERIFIED PRE-ACCIDENT WAGE SUMMARY

Prepared by Melinda Torres, HR Manager, Coastline Home Goods, Inc., 05/27/2026, from payroll system-of-record (Paycom).

Pre-Accident Wage Baseline

Metric	Value	Source
Base hourly rate at date of injury	\$23.50	Payroll (effective 03/01/2024)
Prior hourly rate (2023)	\$22.75	Payroll (effective 03/01/2023)
Average weekly hours worked, trailing 26 pay periods (04/2024–10/2025)	34.0 hours/week	Timekeeping (Kronos)
Median weekly hours worked, trailing 26 pay periods	34.5 hours/week	Timekeeping (Kronos)
Overtime hours, trailing 12 months	27.5 hours (annualized)	Timekeeping (Kronos)
Evening shift differential earnings, trailing 12 months	\$472.50	Payroll
Annualized base wage (34.0 hrs/wk × 52 wks × \$23.50)	\$41,548.00	Computed
Reported annualized wage figure (rounded)	≈ \$41,500	HR summary

Benefits (Not Included in Wage Above)

- Employer contribution to health insurance (Kaiser HMO, employee-only): \$412.00/month (post-injury COBRA elected 11/2025)
- Employer 401(k) match: 3% of eligible wages (Ms. Reyes contributing at 4% pre-injury)
- Paid time off accrual: 0.058 hrs/hr worked (2023–2025); YTD PTO balance at date of injury = 41.2 hours
- Paid sick leave: statutory California accrual; balance at date of injury = 18.5 hours

Leave & Separation Timeline

- 10/18/2025 – Injury; unpaid medical leave commences.
- 10/24/2025 – Final paycheck issued (hours worked through 10/17/2025).
- 11/03/2025 – Accrued PTO of 41.2 hrs paid out at request of sister/conservator M. Reyes.
- 04/18/2026 – Six-month position-hold period expired; employment status changed to separated.
- No wages, hours, or return-to-work of any kind after 10/17/2025.

/s/ Melinda Torres

Melinda Torres, HR Manager, Coastline Home Goods, Inc.

TAB E — VOCATIONAL AND EARNING-CAPACITY ASSESSMENT

PREPARED BY: Dana McCauley, MA, CRC
 Certified Rehabilitation Counselor (CRC #00043829)
 McCauley Vocational Consulting
 1180 Ocean Avenue, Suite 210, Santa Monica, CA 90403
 (310) 555-0148 | dmccauley@mccauley-voc.com

DATE OF REPORT: June 1, 2026

SUBJECT: Yolanda M. Reyes (DOB 06/22/1991)

DATE OF INJURY: October 18, 2025 (age at injury: 34 years, 3 months)

REFERRAL SOURCE: Halstead & Cruz LLP (Nora Halstead, Esq.)

DATE OF INTERVIEW: May 14, 2026 (Alder Creek Neuro-Rehabilitation Institute; 90 minutes, with sister M. Reyes present)

1. Scope of Assessment

The undersigned was retained to (a) evaluate the pre-accident work capacity, occupational profile, and earnings baseline of Ms. Reyes; (b) evaluate Ms. Reyes's post-accident vocational status in light of her documented physical and cognitive impairments; and (c) render an opinion, to a reasonable degree of professional certainty within the field of vocational rehabilitation, on the present value of Ms. Reyes's lost earning capacity attributable to the injuries of October 18, 2025.

2. Materials Reviewed

1. Employer verification letter and payroll records, Coastline Home Goods, Inc. (Tabs A–D above).
2. Rivergate Regional Trauma Center admission and course-of-care records (10/18/2025 – 12/22/2025).
3. Alder Creek Neuro-Rehabilitation Institute inpatient and outpatient records (12/22/2025 – present).
4. Neuropsychological evaluation of Marcus Vandenberg, PhD, ABPP-CN, dated 02/03/2026.
5. Physiatry capacity letter of Helena Vasquez-Ortiz, MD, dated 04/2026.
6. Life-care plan of Cynthia Ohanian, RN, CLCP, and economic appendix of Nathaniel Frome, PhD.
7. Ms. Reyes's high-school transcript (Rivergate Union High School, graduated 2009) and employment application history (Coastline Home Goods hire packet, 04/2019).
8. Personal interview with Ms. Reyes and her sister/former temporary conservator, Marisela Reyes, on 05/14/2026.
9. U.S. Bureau of Labor Statistics Occupational Employment and Wage Statistics (OEWS), May 2024, SOC 41-2031 (Retail Salespersons), Los Angeles-Long Beach-Anaheim MSA.
10. U.S. Life Tables, National Vital Statistics Reports, Vol. 72, No. 12 (female, all races).
11. Skoog, Ciecka & Krueger, "The Markov Process Model of Labor Force Activity: Extended Tables of Central Tendency, Shape, Percentile Points, and Bootstrap Standard Errors," Journal of Forensic Economics 22(2) (updated 2019 worklife tables), consulted for worklife expectancy of women, age 34, high-school-graduate cohort.
12. Dictionary of Occupational Titles (DOT) 279.357-054, "Sales Attendant."

3. Pre-Accident Vocational Profile

Ms. Reyes was a 34-year-old female, right-hand dominant, with a high-school diploma and no post-secondary degree or certificate. She had continuous employment history from age 18, with a single significant employer (Coastline Home Goods, Inc.) from 04/2019 through 10/17/2025. Prior positions included cashier (Rivergate Market, 2010–2014) and clerical assistant (Peninsula Property Management, 2014–2019).

Pre-Accident Occupation: Sales Associate II, Home Textiles / Housewares, Coastline Home Goods, Inc., Store #118.
 DOT-consistent classification: 279.357-054, "Sales Attendant" (light exertional level; frequent standing, walking,

reaching, handling; occasional lifting to 20 lbs).

Wage Baseline (as HR-verified above):

- Base rate: **\$23.50/hour**
- Average scheduled hours: 34.0 hours/week
- Annualized base wage: approximately **\$41,500/year**
- Additional compensation: shift differential, incidental overtime, employer-paid health, 401(k) match, PTO accrual

Transferable Skills Analysis (pre-accident): Ms. Reyes possessed transferable skills for other light-exertional retail and clerical work within DOT groups 279 (sales attendants), 290 (cashiers), and 209 (miscellaneous clerks) throughout the Los Angeles-Long Beach-Anaheim MSA. Absent injury, she was a strong candidate for continued full- or part-time employment in retail and light clerical roles at wage levels consistent with, or modestly above, her Coastline Home Goods baseline.

4. Post-Accident Vocational Status

The medical record documents severe traumatic brain injury with prolonged loss of consciousness, right-sided hemiparesis (partial recovery), aphasia (expressive, mixed with mild receptive component, partial recovery), and persistent cognitive deficits in executive function, working memory, and sustained attention. Dr. Vandenberg's neuropsychological testing (02/03/2026) documents Full-Scale IQ in the low-average range with marked scatter, processing speed at or below the 2nd percentile, and impaired sustained attention on continuous performance tasks. Dr. Vasquez-Ortiz documents ongoing gait instability requiring assistive device for community ambulation and inability to sustain standing or walking for more than 20 minutes without rest.

Direct observation and standardized vocational testing during the 05/14/2026 interview corroborated the clinical picture. Ms. Reyes required frequent redirection to sustain 45-minute test blocks; expressive fluency was limited; she was unable to complete a two-step written work-sample task (mock retail pricing) without cueing.

Vocational Opinion — Post-Accident:

Ms. Reyes is **severely impaired** in her capacity to engage in competitive employment. She is unlikely, within a reasonable degree of professional certainty, to be able to perform the essential functions of her pre-accident Sales Associate position or any competitive light-exertional retail or clerical position in the open labor market. The combination of (a) sub-2nd-percentile processing speed, (b) impaired sustained attention, (c) expressive aphasia, and (d) inability to stand for more than 20 minutes forecloses substantially all DOT categories to which her transferable skills previously extended.

To the extent Ms. Reyes may ever engage in remunerative activity, that activity is limited to **supported or sheltered work with substantial job-coach accommodation** (e.g., piecework in a supported-employment setting such as those coordinated through the California Department of Rehabilitation or a community-based sheltered workshop, at sub-competitive wages typically ranging from \$2.50 to \$6.00 per hour under 14(c) or comparable programs). The reasonable expectation is that even such supported placement, if achieved, would not exceed 12–15 hours per week and would not be sustainable across the balance of the pre-injury worklife.

For purposes of the loss-of-earning-capacity computation below, I have assigned a **residual post-accident earning capacity of \$2,400 per year**, representing modest supported/sheltered work at approximately \$4.00/hour × 12 hours/week × 50 weeks. This is a conservative allowance in Ms. Reyes's favor; the evidence would support a lower figure.

5. Worklife Expectancy

Per Skoog, Ciecka & Krueger (updated 2019 tables), the remaining active worklife expectancy for a female, age 34, with a high-school diploma and initial active status is **26.4 years**. This assumes labor-force participation transitions consistent with the general population and does not incorporate the substantial post-injury withdrawal already established here. For purposes of this analysis, the worklife horizon runs from date of injury (10/18/2025) through age

60 years 8 months.

6. Present-Value Lost Earning Capacity — Methodology

Approach: Straight-line pre-accident baseline earning capacity, escalated by expected wage growth, less residual post-accident earning capacity, over the 26.4-year worklife horizon, discounted to **present value** as of the date of report (06/01/2026) using a real discount rate of 2.5% (matching the discount rate applied by Dr. Frome in the life-care plan economic appendix, for internal consistency across the plaintiff's economic exhibits).

Key Inputs:

Input	Value
Pre-accident annual earning capacity (base wage only, rounded)	\$41,500
Fringe-benefit loading (health, 401(k) match, PTO — conservative allowance)	8.0%
Pre-accident total annual earning capacity, loaded	\$44,820
Expected real wage growth (age-earnings profile, retail/clerical cohort)	0.6%/yr
Residual post-accident earning capacity, loaded (supported/sheltered)	\$2,400/yr
Worklife horizon	26.4 years (10/18/2025 – ~06/2052)
Real discount rate (present value)	2.5%
Discount date (present value as of)	06/01/2026

Formula (in words): For each year t from 1 to 26.4, the annual loss equals the loaded pre-accident capacity, escalated by 0.6% compounded, minus the loaded residual capacity, escalated by 0.6% compounded. Each annual loss is then discounted to 06/01/2026 at 2.5% real. Years 1 through 0.6 (10/18/2025 – 05/31/2026) are treated as fully lost with no residual (Ms. Reyes was in acute/rehabilitative care and unable to work in any capacity through the report date). The 26.4-year fractional final year is prorated.

7. Present-Value Worksheet (Summary)

The full year-by-year computation is filed at Bates 000135–000148. Summary figures below.

Segment	Years	Undiscounted Loss	PV @ 2.5%
Acute/rehab window (DOI – report date)	0.6	\$26,892	\$26,892
Years 1–5 post-report	5.0	\$215,948	\$200,593
Years 6–10 post-report	5.0	\$222,510	\$180,850
Years 11–15 post-report	5.0	\$229,240	\$164,650
Years 16–20 post-report	5.0	\$236,180	\$149,910
Years 21–25 post-report	5.0	\$243,320	\$136,490
Years 26–26.4 post-report (partial)	0.4	\$20,050	\$10,880
Total earnings-capacity loss	26.4	\$1,194,140	\$870,265
Fringe-benefit loss (8% loading applied above)	26.4	(included)	(included)
Household-services capacity loss (secondary component)	26.4	\$500,130	\$363,180
Supported-employment placement / job-coaching offset (in Ms. Reyes's favor, subtracted)	26.4	(\$47,860)	(\$34,090)
Rounding to nearest \$10,000			+\$645
PRESENT VALUE — LOST EARNING CAPACITY (ROUNDED)			\$1,200,000

8. Opinion

To a reasonable degree of professional certainty within the fields of vocational rehabilitation and forensic economics as applied to earning-capacity analysis, and based on the materials reviewed and the methodology described above, it is my opinion that:

1. Prior to the injuries of October 18, 2025, Ms. Yolanda Reyes had a stable, documented earning capacity as a retail sales associate at Coastline Home Goods, Inc., at a base wage of **\$23.50** per hour and an annualized baseline of approximately \$41,500, with additional benefits and modest wage growth reasonably expected across the balance of her worklife.
2. As a result of the injuries of October 18, 2025, Ms. Reyes is severely impaired and, to a reasonable degree of professional certainty, is unlikely to be able to perform her pre-accident work or any competitive light-exertional employment in the open labor market. Any remunerative activity of which Ms. Reyes may be capable is limited to supported or sheltered employment with substantial accommodation.
3. The **present value** of Ms. Reyes's lost earning capacity, computed as described in Sections 6–7 above and discounted to 06/01/2026 at a 2.5% real rate over the 26.4-year worklife horizon, is **\$1,200,000** (rounded).

I reserve the right to supplement or amend these opinions in light of additional records, testimony, or medical developments.

Executed at Santa Monica, California, on June 1, 2026.
